

Series Summary: In this series we will be looking at all the different parts of our life that God has graciously allowed us to have some management over. Some of these include our time, money/belongings, opportunities, relationships, and our own body. Everything we have is given to us by God and is to be used to glorify Him. We forget this pretty quickly and tend to live our lives with a closed hand around the parts of our life we feel some ownership over. The heart behind this series is that we learn how to use what God has given us for His gain instead of our own selfish gain. There can be very practical sides to these conversations but the motivation to let go and give up ownership must stem from a heart that is truly surrendered to God and actually wanting to put Him first in our lives. God's position is that of owner, our position is that of manager, and the sooner we can realize that the sooner we can live a fully surrendered life.
